### About the workshop

As religious leaders, your unique role is to minister to others in pain, yet you often lack a safe space to address your own. You experience secondary trauma without a place to address and heal it. A faith community gives life and strength but is also an institution where one often experiences pain; we offer a safe place to address these wounds, recognizing the invaluable contribution you make to the healing of others.

Healing of Memories workshops were designed to respond to emotional, psychological, and spiritual wounds inflicted by war, human rights abuses, and other traumatic circumstances. They provide a safe place for participants, including religious leaders, to embark on a transformative journey of exploring personal histories, finding insight, and cultivating empathy for themselves and others.

**Workshop Cost:** Single Rm \$660, Shared Rm \$520; Fee includes program, 3-night stay, room & board.
